

Kyoto

No qualifying demand yet

Internal status PDF · 20 August 2026 · R38-qualified source data

4

strict trips remaining

The public qualification floor is 10 trips.

No figure clears the public floor.

What this means

Kyoto does not currently qualify for a demand one-pager. The approved R38 provenance rule excludes a burst-created cohort of 27 unowned, non-authoring trips that shared the same destination, stay dates, and creation day. The remaining strict population is below the public floor.

Qualification status

Strict population after R38	4 trips
Public qualification floor	10 trips
Property-led figure	Does not qualify
Service-led figure	Does not qualify
External use	Not authorized

This document is a truthful qualification status, not an advertisement. It contains no fabricated replacement figure and is not a
